Thunder, lightning, and brisk winds teased Cameron Sunday night, promising rain, but actually producing only .03 of an inch. Cameronites at least had a cooler night's sleep, for the temperature fell from 94 degrees at 5 p. m. to 74 degrees a little while after the drizzle started.

The KTEM transmitter in Temple reported only .17 of an inch of the long-looked-for moisture, but Killeen boasted a two-inch rain between 7:30 and 8:30 p. m. Wind in Killeen knocked down several television antennas.

Copperas Cove reported .55 of an inch between 7 and 7:30 p. m.; Troy, .10; Holland, .30; Jarrell, .28; Gatesville, .50; Belton, .75; Salado, .25; Kopperl, 2.65; McGregor, 1.; Hillsboro, 1.8; Gatesville, .4; and Waco, .05.

A twister and three inches of rain struck the Valley Mills area Sunday afternoon. Many trees between Cayote and Valley Mills were broken, a few windows were shattered, but little other damage was reported.

Texas high temperature Sunday was recorded at Presidio, which had 110 degrees. North of the cool front, Texarkana's highest reading a cool 71; Fort Worth, 83; and Dallas, 80. That was the coolest maximum temperature in Dallas in 56 days.

### THE LITTLE RIVER PHILOSOPHER ALARMED OVER CITY GROUP WHICH TRIES TO FINE A MAN FOR UNDER-FEEDING A COW

Editor's note: The Little River Philosopher on his Johnson grass farm at Marlow no doubt is unduly alarmed over the matter he discusses this week. Pay no attention to him.

Dear editor:

Nearly every paper that turns up out here on my Johnson grass farm at Marlow lately, doesn't make any difference whether it gets here by whirlwind or falls out of my neighbor's mail box, but lately he's straightened the post holdin it up and I have to worry with that paper for ten or fifteen minutes, sometimes to get it to fall out, at any rate, as I started out to say, nearly every paper that turns up out here lately has had something in it about the government's new policy of "hard money."

I do not understand this. That is, I understand what hard money is, but I do not understand the talk about it's been a new policy.

I thought that was the policy we've had in effect for years. I've heard of easy money, but I thought it was mostly a campaign promise like reduced taxes. All the money I've ever earned was hard money, all the money I've ever borrowed was hard money, all the money I've ever re-paid was even harder, and what I still owe is even harder than that.

To change the subject, I noticed in another paper yesterday where the Dallas Society for the Prevention of Cruelty to Animals filed a complaint against a man the other day for under-feeding a cow.

I did not pay much attention to this item until I got to think about it, and I want you to

### TEXAN PARADE

By ROSS PHARES  
FEROCITY OF BEARS  
OVERRATED

The bear is a symbol of rugged, independent life. He is pictured as a frightful, deadly monster, whose chief instincts are to claw and eat human beings. In spite of the many campfire tales to the contrary, the bear rarely defending its young, attacked, or cornered.

Probably the most popular myth about the bear is that it hugs its enemies to death. Bears have been trained for exhibition purposes to box and wrestle. But they show no natural tendency to hug or clench an antagonist.

James A. McKenna recorded some characteristics of the bear in his autobiography, "Black Range Tales": "The bear's teeth are made for vegetable rather than for fleshy foods. . . . They are smart beasts but do not rank as high in that respect as a dog or horse. . . . During the breeding season they seemed to carry a chip on their shoulders."

McKenna told of the natural peacefulness of bears: He was

know that while I ain't in favor of bein cruel to dumb animals, I'm afraid this Society is up against a pretty big job if it has any plans for movin against everybody in Texas who at the moment is under-feeding his cows. In West Texas alone the Society would probably go crazy, and I have a pretty good idea of what they'd say if they came out here and gave a physical examination to some of my cows.

The way I look at it, you put a fine on a cattleman for not feedin his cows enough, on top of goin broke anyway on account of the price drop, and this country will wind up livin on vegetables.

Personally, with cattle bringin what they are now, I'm in favor of organizin a Society for the Prevention of Cruelty to Cattle-men. It's bad enough for a man not to feed his cows, but it's even worse for his cows not to feed him.

Yours faithfully,  
J. A.

sitting in the doorway of his cabin when he saw in the distance what he took to be two dogs rolling on the ground. After a while he went to them and found the animals to be two bears about six months old. "They ran towards me, frisking and tumbling around my legs." He tried to drive them off, afraid that an angry, defending mother might attack him. But the cubs refused to go away. McKenna concluded that the mother had been killed. The cubs trailed him back to his cabin and became devoted pets. They learned to dance and wrestle with him.

Bears attack stock for food. But unlike members of the cat family, they often depend upon cunning rather than stalking. Bears have been observed rolling in the grass and waving their tails to attract cattle and lure them through curiosity close enough to spring upon them.

Old Bruin has furnished much fun to the human race as the subject of jokes, many of which have made him appear more vicious than he actually is. But he has also been the victim of jokes, which indicates that he can usually be handled satisfactorily, if the teaser is prepared.

J. Evetts Haley, in his biography of Charles Goodnight, tells of cowboy Frank Mitchell lassoing a bear and bringing him into camp. There the cowboys decided to put the JA brand on him. A cowpuncher roped the bear's heels and stretched him out between two horses. The branding iron was heated. Then Mitchell put it to the bear's hip and turned him loose.

The resulting commotion indicates that bears may have caused more people to hurt themselves than the bears have hurt. The bear broke through the door of the nearby kitchen where Mrs. Dever was washing dishes, her baby resting in a crib beside her. At the approach of the beast she grabbed the child and pitched it out the window, fainted, and fell into the woodbox behind the stove. The bear jumped onto the table, ran up it and jumped out the window. Men were running in every direction. The baby was stepped on, and as the animal ran down a trail he stampeded the hired help in that direction.

The bear apparently made no effort to harm any one, but he

### Carloads Of Feed Are Heading Toward 152 Texas Counties

Dallas, July 8.—Hundreds of carloads of emergency rations for scrawny livestock were headed today toward Texas' 152 drouth-disaster counties.

C. H. Moseley of the Production and Marketing Administration commodity office here said 277 rail cars of corn, 114 of oats and four carloads of wheat were on their way to more than 100 points.

The shipments, he said, would blanket the moisture-short land from Dumas in the Panhandle to Del Rio on the Rio Grande.

Moseley's office also sent 15 cars of corn and 13 of oats into Oklahoma's 40 disaster-designated counties.

F. P. Biggs, PMA commodity director at New Orleans, announced shipping orders for 7,758 tons of cottonseed meal and pellets have been issued and that 6,154 tons are rolling into Texas.

Oklahoma ordered 3,380 tons of meal and pellets, he said, and 1,040 tons are enroute.

This emergency livestock feed is going ((freight paid), to drouth victims at bargain prices: \$1 a bushel for corn, \$1.10 a bushel for wheat and 50 cents a bushel for oats.

was hardly in a friendly mood with his rump freshly seared by a hot branding iron.

Instinctively, Old Bruin is shy and timid, and prefers to go his own way unmolested. But he is a tough creature with whom no sensible, unprotected person will take liberties.

Mr. and Mrs. Monroe White, Sr. had their children home for the July 4th holidays. They are: Mr. and Mrs. Harold Hill and son, Paul from Houston, Mrs. Lane Stecher and son, Bobby of Waco and A-3c Monroe White, Jr. of Lackland AFB, San Antonio.

Terry Joe and Cyril Ann Kossbiell, son and daughter of Mr. and Mrs. Burnie Kossbiell of Fort Worth are spending their vacation in Cameron with their grandparents, Mr. and Mrs. Marshall Terry.

## 81 New Polio Cases In Texas; Funds Run Out in 31 Counties

Austin, July 8.—Polio jumped to its highest one-week toll of the year in Texas last week.

The state health department reported 81 new cases, 18 more than the previous week.

Health Officer George W. Cox said the sudden upsurge was expected.

"A seasonal rise was just about due. I hope the jump will impress on people the constant need for strict summertime sanitation," he said.

Greatest incidence this year as usual has been in the state's large population centers with the exception of Travis and El Paso counties. Harris County has been hardest hit with 71 cases.

The cost of polio is going up in Texas with 31 local county chapters of the National Foundation for Infantile Paralysis having run out of March of Dimes funds. This has resulted in sending of more than \$150,000 into the state by the Emergency Aid Fund of Foundation headquarters to meet outstanding treatment bills during the first half of 1953.

At the same time, the 1953 incidence of polio is running a little more than half the 1952 figure, with 592 cases having been reported against the 1952 half year total of 1096.

According to a report of the U. S. Public Health Service, compiled nationally by the Polio Foundation, there are but 10 states in the country showing less polio in 1953 than in 1952. For the most part, with the exception of Texas, Louisiana and Mississippi, these are states which have had extremely low incidence in the past.

California again leads the country in the total number of cases to date with 877 compared to the 1952 half year total of 544.

## NOW! Ford Master-Guide the last word in Power Steering!

"WHO NEEDS MUSCLES?"

Master-Guide applies hydraulic steering power automatically... and in varying degrees as required... right at the steering linkage, close to the wheels. At the same time the system serves as a hydraulic shock absorber to keep road jars and jolts from your hands. As a result all you do is... guide the car... Master-Guide supplies the muscles.

It's the newest in a long list of Ford advancements that make this Ford the outstanding car for '53!

No other car near Ford's price has ever offered you so much! Ford was the first in its field to bring you V-8 power. Today, Ford alone of all the low-priced cars offers you the smooth, unsurpassed performance of a V-8 engine. And Ford's Six with Overdrive, won the Sweepstakes in this year's Mobilgas Economy Run.

Ford first brought to the low-price field a completely automatic transmission that combines the smoothness of a torque converter and the gas-saving "go" of automatic gears. In all, Ford offers 41 "Worth More" features.

And now, in addition, Ford brings you the newest and finest in power steering... Master-Guide, a system exclusive in Ford's field! It's no wonder, then, that Ford is the "Worth More" car... worth more when you buy it... worth more when you sell it.

**HELPS YOU OUT OF "TIGHT SPOTS!"** The tougher the going the more Master-Guide works for you. For example, if you go off the pavement onto a soft shoulder or a rough, rutted road, Master-Guide provides the muscles to hold a steady course. Master-Guide also absorbs the shock that might otherwise be transmitted to the steering wheel. All handling is easier with Master-Guide and parking requires only one-fourth the normal effort. Should Master-Guide ever lose its power, the standard steering mechanism will operate just as usual. Thus, Master-Guide provides new ease with full security, wherever you drive. Optional on all V-8 models at extra cost.

## Texas Unemployment Jumps 2,100 in May

Austin, July 13.—Texas unemployment increased 2,100 during May, with 99,100 persons listed on jobless rolls, the Texas Employment Commission reported today.

TEC Labor Representative Dean W. Maxwell said more than one-half of the 2,100 increase in unemployment was attributed to the large number of workers thrown out of jobs by the tornado which struck Waco May 11.

Waco had 7.3 per cent of its labor force unemployed the largest ratio in the state, but the Houston-Baytown area counted the largest number of people without jobs at the end of May, 9,900 persons.

Buckholts Church Adopts Farrow Plan; Dinner on July 17

The Buckholts Methodist Church has adopted the Farrow Plan, an intensive program of visitation and evangelism, in an effort to revitalize the church in the community, pastor Bob Peacock announced Friday.

To strengthen church both spiritually and materially, many people are being given an opportunity to work in the various phases of the program. Literature is being mailed twice weekly to its members and those interested in the church. Guest lay speakers are filling the pulpit in this extensive campaign.

A family style dinner will be held at the church Friday, July 17, at 7 p. m. After the dinner, visitation teams will go forth to homes in an effort to fulfill the needs of the church.

Rev. Peacock stated that throughout the state of Texas a large number of Methodist churches have taken advantage of the Farrow plan. Because of its extensiveness, it is recommended that this plan not be used more than once in four years, he pointed out. Through the efforts of each individual, he said, the finances, membership, and attendance can be increased two, and often three, times. As an example, Rex Peacock gave the Methodist church at Reagan, Texas, where the pledges of the church were increased from one hundred dollars a month to four hundred dollars a month.

Rev. Peacock, who is a student at Southwestern University at Georgetown, has been pastor of the Buckholts Methodist

Church for one year. His parents are Mr. and Mrs. B. H. Peacock of Mineral Wells.

A successful report was made of the recent bake sale held by the club.

Mrs. T. R. Allen, secretary, told of the gifts sent to the patients at Mexia state school from the club.

"Growing Old Graciously" was the topic for the afternoon's program. Each member received a high score.

Surprise package was won by Mrs. Britin.

The hostess served refreshments of sandwiches, cake and punch at the close of the program.

The next meeting will be held at the home of Mrs. Bill Storey on July 21.

This is the first letter received from Johnny Solomon, one of the Scouts from Cameron who are at the National Boy Scout Jamboree in Santa Ana, Calif. Others from our city are John D. Reichert, Ray Green, Turner Newton, Rev. John Solomon, and Rev. George Duda.

The letter was postmarked: Salt Lake City, Utah.

Friday Afternoon (July 10)

Dear sir:

We left Waco at 12:30 and we tried to locate everything on the train.

The train came into Fort Worth and we got off while the crews changed. (Katy to the Fort Worth and Denver).

The first meal on a train with approximately 566 people is a little rough so we didn't get to eat till 10:00. Boy, we were hungry.

We slid through the north-east upper corner of New Mexico and

Frank Lesikar shopped in Cameron Thursday.

Mr. and Mrs. Fisher Ward and Ann were Cameron visitors Saturday.

Mr. and Mrs. Charles Russell visited in Rosebud Friday.

Mr. and Mrs. Fred Starnes shopped in Cameron Saturday.

some beautiful country. We saw some huge jackrabbits.

During Thursday night we came into Colorado. When we woke up we came into Pueblo, Colorado where we received a hearty welcome. We were 3 1/2 hours ahead of schedule.

We stopped at Royal Gorge and when we saw it, it made us feel pretty small.

We came into Salt Lake City, Utah around 11:30 a. m. We were to stay here till 8:10 the next morning.

During that time we went to the Norman Temple and saw all the sights there. After lunch we went on a tour of the World's Largest Copper Mine. One little fact is that the mine could hold the State of Texas' population (600,000) to sell them candy, pop corn, etc.!

Then we went swimming in the Great Salt Lake. "Phooey!" All in all we're having a wonderful trip.

Sincerely,

Johnny Solomon.
